

2.Project: “LET’S START THINK AND ACT IN AN ENVIRONMENTALLY FRIENDLY WAY!”

About the project

This project is about the natural environment, about being responsible citizens. It focuses on positive actions that promote ecological behaviour. Teachers have an important mission, to lead and support students to be creative and to take responsibility for a better future. Thus, we aim to make our students responsible and to show a friendly attitude towards the natural environment. We want to identify solutions to reduce the effects of climate change and create environmentally friendly materials to promote environmentally friendly behaviour.

30 School members: Spain , Macedonia, Italy, Turkey, Portugal, Romania, Lithuania, Albania, Greece, Georgia....

Il progetto attivato nella classe V A della Scuola Primaria di Sarconi in Lingua Inglese vuole sviluppare l’attenzione e l’interesse verso l’ambiente da parte dei bambini; **formare una mente ecologica critica e partecipativa**

Attraverso la sezione **Twinspace** della eTwinning community, gli alunni e i docenti pubblicheranno e condivideranno con le altre scuole europee percorsi interdisciplinari, lezioni, riflessioni, outcomes (poster, disegni, ,mappe e video, poesie..) realizzati in classe sul tema **AMICI DELL’AMBIENTE**. È un’opportunità d scambio di buone pratiche per i docenti ed è soprattutto una straordinaria opportunità per gli alunni di sviluppare sensibilità e comportamenti rispettosi per l’ambiente in una visione unitaria ed europea.

WORK PROCESS

JANUARY: Climate Change Debate

FEBRUARY: Competition with sustainable means of transport in the school yard.

Creating eco-friendly materials to promote environmentally friendly behaviour.

MARCH: Project evaluation

Each member is asked to post a collage, made by students, with impressions and conclusions.
